Personal Expense Tracker – GUI Version with Tkinter

Features:

- ✅ GUI Interface
- ✅ Add expenses (Date, Time, Category, Amount, Note)
- ✅ Filter by Category and Date
- ✅ Show bar chart using Matplotlib
- ✅ Auto Save/Load using Pickle
- ✅ Add delete/edit functions
- ✅ Switch to dark theme or styled UI
- ✅ 📊 Chart + Filter + Total

Library:

1. **First install matplotlib (if not installed):**

pip install matplotlib

2. We'll use tkcalendar for a calendar popup. First, install it:

pip install tkcalendar

3. Convert to .exe (Using pyinstaller)

pip install pyinstaller

4. Navigate to the folder where your Python file is and run:

pyinstaller --onefile --windowed your_file_name.py
